

Woolwich Wildcat Water Bottles

Did you know that water hydrates your brain and drinking water regularly throughout the school day makes healthier pupils who in turn make better learners. Water bottles mean fewer trips to the water fountain which equals more time in the classroom learning!

Dehydration is one of the most preventable problems in sports. It can affect an athlete's ability to perform by causing headaches, cramps, and excessive fatigue. The cure is as easy as picking up a water bottle full of water.

The Woolwich PTC is selling the 20 oz. fitness bottle for a bargain at \$3.00 per bottle.

The bottle is in our Wildcat Blue color with a pull top. On the front of the bottle is "Woolwich Wildcats" and our Wildcat paw print. On the back of the bottle is a space to put your name. What a great way to show our Woolwich Wildcat Pride!!

If you are interested in purchasing, please fill out and return with payment to the school by Nov 2nd. Please call Karen Madden at 798-0907 with any questions.
